SUMMARY

Full Stack Developer with complete MERN stack expertise (MongoDB, Express.js, React.js, Node.js) and hands-on internship experience building end-to-end web applications. Proficient in RESTful APIs, Next.js, and both client-side and server-side development. Passionate about delivering scalable, production-ready applications with clean architecture and seamless user experiences.

EDUCATION

Bachelor of Engineering (BE Computer Engineering)

Nov 2022 - Jun2026

Pravara Rural Engineering College, Loni (SPPU) Avg CGPA : 9.1

TECHNICAL SKILLS

Languages : C++, Javascript(ES6+) ,SQL ,HTML,CSS

Frameworks/ Libraries : React.js,Node.js,Express.js,MongoDB,RestAPI,Tailwind,Next.js.JWT,GitHub

Relevant Coursework: Database Management System.Operating System,Computer Networks

EXPERIENCE

Jan 2025– March 2025

Intern- MERN Stack (Trainee)

P99Soft Pvt. Ltd.

- Trained in frontend development using React.js, JavaScript, HTML5, and CSS3 within the MERN stack
- Built multiple responsive components and integrated REST APIs for real-time data display across modules

Web Development Intern

Jun 2025 - July 2025

CodSoft Limited

- Developed responsive front-end interfaces using HTML, CSS, and JavaScript
- Contributed to UI/UX enhancements and actively participated in debugging and testing sessions

PROJECTS

[GitHub](#)

Hospital Management System

- Designed an Advanced Hospital Management System (HMS) web application, enabling seamless management of hospital tasks like appointment scheduling, patient records, and doctor information, resulting in a 40% enhancement in process efficiency.
- Integrated robust authentication and role-based access mechanisms, ensuring data integrity and achieving a 30% reduction in unauthorized access incidents.
- Built modules for automated scheduling and electronic health records management, leading to a 35% increase in patient satisfaction and streamlined administrative operations.

[GitHub](#)

AI Resume Analyzer

- Developed an AI-powered Resume Analyzer using MongoDB, Express.js, React.js, and Node.js, enabling automated resume evaluation against job descriptions with ATS score generation and skill-gap analysis.
- Implemented secure JWT-based authentication, RESTful APIs, PDF resume processing, and MongoDB Atlas integration, ensuring efficient data management and protected user access.
- Designed a responsive and interactive dashboard that provides matching skills, strengths, weaknesses, and personalized improvement recommendations, enhancing resume optimization and user experience

LEADERSHIP / EXTRACURRICULAR

- **Smart India Hackathon (Internal Finalists):** Built a comprehensive digital solution for e-waste management.
- **Coordinator, Infinity :** Led the college's coding club, organized technical events, and conducted peer mentoring sessions.
